About Me

Jack is an experienced Cyber Defense (CSIRT) analyst with 7 years of hands-on experience in Incident Response, Digital Forensics, and Cyber Intelligence-driven defense. I specialize in investigating security incidents, conducting in-depth forensic investigations, and effectively remediating security incidents to enhance organizational security. With a solid background in Security Operations Centers (SOC) and a focus on real-time threat detection and response, I excel in mitigating risks and improving organizational resilience.

I am certified in Digital Forensics and Incident Response (*SANS GCFA*), Penetration Testing (*eCPPT*), and Cyber Intelligence *(arcX Practitioner Intel Analyst)*, showcasing my broad expertise in tackling a wide range of cybersecurity challenges
